

**Information to the electrical and electronics equipment law (ElektroG)  
regarding power supplies produced by EPLAX GmbH**

Page 1/2 · Rev. 1.4 (english translation)

20 April 2006

Dear sir or madam,

as manufacturer of power supplies we see ourselves in the obligation, to give information to our customers concerning the electrical and electronics equipment law – short ElektroG.

The EC Directive RoHS (Directive 2002/95/EC on the restriction of the use of certain hazardous substances in electrical and electronic equipment) and WEEE (Directive 2002/96/EC on waste electrical and electronic equipment) are converted to german law by the ElektroG from 16. March 2005.

Our power supplies are components for further assembly (internal power supplies) and consequently no electrical and electronic equipment in the sense of the ElektroG (§2 Abs. 1, [10 equipment categories], as well as Annex I [list of categories and equipment]).

Since the Power supplies we manufacture do not fall under the scope of the ElektroG, but our components can in principle be built in units which do fall under the scope of the ElektroG and since we wish to offer our customer best possible service, the following procedure has been determined in our company.

To avoid deception, our power supply components will, in accordance with the ElektroG and WEEE, not be registered with the Elektro-Altgeräte Register – short EAR – and will also have no identification marking according to DIN EN 50149 (crossed-out wheeled bin underlined).

*(continued)*

Relating to the forbidden substances as defined in §5 Abs. 1 of the ElektroG, it is our goal, to deliver exclusive RoHS-compliant power supplies to our european customer, latest 01. July 2006 as mandatory. Irrespective of this mandatory time limit we are already able to deliver RoHS-compliant Power Supplies for some models. Our new PK75 series is already RoHS compliant. Please refer to our notices in the relevant trade journals.

We will be pleased to answer any further questions that you may have.  
Please do not hesitate to contact:

**Mr. Ralf Heukrodt, Phone: +49 (0)421 / 949 30-34.**

We look forward to mutual success and co-operation with our customers in the future.

Best wishes

Andreas Mielke  
Managing Director
